Report of Independent Registered Public Accounting Firm

To the Member and Board of Directors of
CommunityAmerica CUSO One, LLC
Lenexa, Kansas

Opinion on the Financial Statements

We have audited the accompanying statement of financial condition of CommunityAmerica Financial Solutions, LLC (the "Company") as of December 31, 2018, including the related notes (collectively referred to as the "financial statement"). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of December 31, 2018, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

BKD, LLP

We have served as the Company's auditor since 2018.

CommunityAmerica Financial Solutions, LLC

Notes to Financial Statements

(1) Nature of Organization

CommunityAmerica Financial Solutions, LLC (Company) is registered with the Securities and Exchange Commission ("SEC") as a securities broker-dealer under the Securities Exchange Act of 1934 and is also a registered investment adviser with the SEC. The Company is a member of the Financial Industry Regulatory Authority, Inc. ("FINRA"), and the Securities Investor Protection Corporation ("SIPC").

The Company was formed for the purpose of providing investment services, including sales of equities, corporate debt, mutual funds, U.S. government and municipal securities. The Company is also engaged in sales of life insurance and annuities, brokered certificate of deposits and financial planning and advisory services.

The Company is a subsidiary of CommunityAmerica CUSO One, LLC (CUSO One), a subsidiary of CommunityAmerica Credit Union (CACU), a state chartered natural person credit union, and the ultimate parent of the Company. The Company derives the majority of revenue from referrals and relationships with CACU as the majority of the Company's customers are also members of CACU. Therefore, a change in ownership, operating structure, or membership of CACU could have a significant adverse impact on the Company's operations.

Beginning May 7, 2018, the Company clears transactions for its customers on a fully-disclosed basis with Apex Clearing Corporation. Previously, customer transactions were cleared through Pershing, LLC via a service agreement with CUSO Financial Services, LP. Clearing agents carry all customer accounts and maintain the related records. Accordingly, the Company is exempt from Rule 15c3-3 of the Securities Exchange Act of 1934, under paragraph (k)(2)(ii) of that Rule.

(2) Summary of Significant Accounting Policies

This summary of significant accounting policies of the Company is presented to assist in understanding the financial statements of the Company. These accounting policies conform to accounting principles generally accepted in the United States (GAAP) and reflect practices appropriate to the industry in which the Company operates.

Use of Estimates - The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities as well as the disclosure of the amounts of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Cash - The Company, at times, maintains cash deposits in excess of federally insured limits. At December 31, 2018, the Company's uninsured cash balances totaled \$656,916. Management monitors the soundness of these financial institutions and believes the Company's risk is negligible.

As of December 31, 2018, the Company held cash deposits at CACU totaling \$650,899.

Internally Developed Software - Costs that are related to the conceptual formulation and design of internally developed software are expensed as incurred. Costs that are incurred to produce the finished product after technological feasibility has been established are capitalized and will be amortized on a straight-line basis over the software's useful life. Costs to support or service internally developed software, after the point technological feasibility has been reached, will be expensed as incurred. During 2018, the Company capitalized \$972,326 related to software with an estimated service life of five years.

Income Taxes - The Company is treated for tax purposes substantially as a partnership and, accordingly, is not subject to federal or state income taxes. At December 31, 2018, the Company believes it has retained its' non-taxable status, and therefore does not have any uncertain tax positions which did not meet the

CommunityAmerica Financial Solutions, LLC

Notes to Financial Statements

more likely than not measurement threshold. The current and prior two tax years remain subject to examination by U.S. federal and most state tax authorities.

Recent Accounting Pronouncements - In May 2014, the FASB issued Accounting Standards Update (ASU) 2014-09, "*Revenue from Contracts with Customers*" (ASU 2014-09). This comprehensive new revenue recognition standard will supersede all existing revenue recognition guidance. The core principle of the standard is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. The standard creates a five-step model for revenue recognition that requires companies to exercise judgment when considering contract terms and relevant facts and circumstances. The five-step model includes (1) identifying the contract, (2) identifying the separate performance obligations in the contract, (3) determining the transaction price, (4) allocating the transaction price to the separate performance obligations and (5) recognizing revenue when each performance obligation has been satisfied. The standard also requires expanded disclosures surrounding revenue recognition. ASU 2014-09 is effective for annual reporting periods beginning after December 15, 2017, including interim periods within that reporting period and allows for either full retrospective or modified retrospective adoption with early adoption being prohibited. The Company evaluated its significant contracts with customers, which resulted in no change in the way the Company was recognizing revenue to comply with the new standard. The Company has adopted the new standard effective January 1, 2018 with a full retrospective approach.

In February 2016, the FASB issued ASU No. 2016-02, "*Leases*" (*Topic 842*) (ASU 2016-02), to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. Under ASU 2016-02, a lessee will recognize in the statement of financial condition a liability to make lease payments (the lease liability) and a right-to-use asset representing its right to use the underlying asset for the lease term. The recognition, measurement, and presentation of expenses and cash flows arising from a lease by a lessee have not significantly changed from current U.S. GAAP. ASU 2016-02 retains a distinction between finance leases (i.e. capital leases under current U.S. GAAP) and operating leases. The classification criteria for distinguishing between finance leases and operating leases will be substantially similar to the classification criteria for distinguishing between capital leases and operating leases under current U.S. GAAP. For public business entities, the amendments are effective for fiscal years, and interim periods within those years, beginning after December 15, 2018. Early adoption is permitted. The Company has evaluated the impact this ASU will have on the Company's Statement of Financial Condition. Upon adoption, the Company expects to recognize additional operating liabilities of approximately \$428,738 and a corresponding right-of-use asset of the same amount based on the present value of the remaining minimum and expected future rental payments under existing operating leases.

(3) Related Party Transactions

The Company operations are highly dependent on its relationship with CACU, the parent. Substantially all revenues are earned from referrals of CACU's members to the Company and certain expenses result directly from agreements with CACU. The Company has an expense sharing agreement with CACU that provides for the reimbursement of certain expenses incurred by CACU that are allocable to, and therefore, paid by the Company, including accounting, human resources, technology and general overhead expenses. A net payable to CACU with a balance of \$16,326, is included in accounts payable on the statement of financial condition.

The Company has an expense sharing agreement with CUSO One that provides for the reimbursement of certain expenses incurred by CUSO One that are allocable to, and therefore, paid by the Company, related to technology expenses. The payable at December 31, 2018 is included in the aforementioned net payable to CACU. CACU then reimburses CUSO One.

The Company has sustained operating losses and negative operating cash flows during the current period and in previous periods. Management recognizes that the Company is reliant on its parent to provide continued financial support. Furthermore, CUSO One, as the parent and sole member of CAFS, is

CommunityAmerica Financial Solutions, LLC

Notes to Financial Statements

committed to funding the organization as the need arises. The parent made capital contributions of \$3,000,000 during the year. The Board of CUSO One has authorized further capital infusions for CAFS to continue operations through February 28, 2020.

The Company leases space from CACU on an annual basis at a fixed rate cost per occupied square foot as set forth in the expense sharing agreement. The lease is renewed annually and lease expense may change based on the occupied square footage. Lease expense is included in office occupancy and administration in the statement of operations.

Other relationships include deposits of cash with CACU and participation in a retirement plan sponsored by CACU, as described below. In addition, registered representatives of CAFS are occasionally advanced commissions in the form of a draw, which is repaid through earned income in subsequent months. As of December 31, 2018, the aggregate amount of employee draws outstanding was \$9,655, which is included in other receivables on the statement of financial condition.

The Company has an agreement in place with United Nations Federal Credit Union (UNFCU) and UNFCU Advisors, LLC ("UNFCUA") to offer investment products and services to UNFCU members. UNFCU Investment Advisor Representatives are dually registered with CAFS and UNFCUA and operate under an outside business activity arrangement for the investment advisory services conducted through UNFCUA.

(4) Notes Receivable

The Company may extend loans to its financial advisor employees as a recruiting tool during the hiring process. The notes are structured in the form of retention loans, and include terms such as; unsecured, non-interest-bearing, and interest bearing loans (between 5 and 13%) and various terms which allow for forgiveness of the outstanding balances if certain service or performance conditions are achieved by the financial advisors. As of December 31, 2018 the Company had no outstanding notes from employees.

(5) Retirement Plan

Employees participate in a qualified, defined contribution retirement plan sponsored by CACU. In order to be eligible to participate, an employee must be employed by the Company for a period of one year or more and work at least 1,000 hours per year. Contributions to the plan are funded by employee contributions with the Company matching 100% of the employee's contribution on the first 6% of the employee's contribution. The Company may also make a discretionary employer contribution. Accrued contributions of \$75,636 as of December 31, 2018 are included accrued expenses in the statement of financial condition.

(6) Commitments and Contingencies

General Litigation

The Company is subject to claims and lawsuits that arise primarily in the ordinary course of business. It is the opinion of management that the disposition or ultimate resolution of such claims and lawsuits will not have a material adverse effect on the financial position, results of operations and cash flows of the Company.

Current Economic Conditions

Changing economic and financial market conditions could adversely affect the Company's results of operations in future periods. The accompanying financial statements have been prepared using values and information currently available to the Company.

Concentrations, Credit Risk and Off Balance Sheet Risk

In the normal course of business, the Company's customer activities involve the execution of various customer securities transactions. These activities may expose the Company to off-balance-sheet risk in

CommunityAmerica Financial Solutions, LLC

Notes to Financial Statements

the event the customer or other broker is unable to fulfill its contracted obligations and the Company has to purchase or sell the financial instrument underlying the contract at a loss.

The Company does not open or establish accounts on behalf of its customer and does not clear its own securities and futures transactions. The Company routes customer orders to trading centers (e.g. a national securities exchange), and each order message includes the customer clearing account number and clearing broker information. When a trading center executes a customer order, the trading center electronically sends the transaction directly to the clearing firm where it is booked to the customer clearing account in real time. Upon booking, the Company is relieved of any credit risk. As such, any risk associated with concentration of credit is mitigated by the clearing broker's obligation to comply with rules and regulations of the SEC.

(7) Indemnifications

In the normal course of business, the Company indemnifies and guarantees certain service providers, such as broker-dealers, against specified losses in connection with their acting as an agent of, or providing services to, the Company. The maximum potential amount of future payments that the Company could be required to make under these indemnifications cannot be estimated. However, the Company believes that it is unlikely it will have to make material payments under these arrangements and has not recorded any contingent liability in the financial statements for these indemnifications.

(8) Net Capital Requirements

The Company is subject to the SEC Uniform Net Capital Rule ("Rule 15c3-1"). The Company computes its net capital requirements under the basic method provided for in Rule 15c3-1. The basic method requires minimum net capital to be the greater of \$50,000 or 6 2/3% of aggregate indebtedness. Employee advances, repayment of subordinated borrowings, dividend payments, and other equity withdrawals are subject to certain notification and other provisions of the SEC Uniform Net Capital Rule of other regulatory bodies.

At December 31, 2018, the Company had net regulatory capital of \$844,644, which was \$792,011 in excess of the required net capital of \$52,633. Also, the ratio of aggregate indebtedness to net regulatory capital for the Company is not permitted to exceed 15 to 1. As of December 31, 2018 the ratio of aggregate indebtedness to net capital for the Company was 0.93 to 1.

(9) Subsequent Events

The Company has evaluated subsequent events for potential recognition and/or disclosure through the date these financial statements were issued, noting none.
